MORTARMASTER

## MortarMaster VSE 500

*biz*SAFE<sub>3</sub>

## Achieve Efficiency Enhance Productivity

Ideal choice for the mixing and conveying of materials, even dry types which cannot be pumped by discharged pumps. The VSE 500 has proven itself to be the most time and cost saving machinery that replaces crane transport and reduce manpower in the handling of:

- Sand (wet/dry)
- Floor Screed
- Chipping concrete

### Technical Specification of VSE 500

Electrical Motor (kW):	18.5	Dimension (LxWxH):	2600x1300x 1250
Conveying Distance (m):	200*	Weight (kg):	1125
Conveying Height (m):	100*		
Compressor Volume (Req.):	185-375	Conveying Capacity (m <sup>3</sup> /hour):	8*
Compressor Pressure (Bar):	7	Maximum Grain Size (mm):	10*

\*Figures dependent on material

## Best Of Both Worlds: Mix & Pump

### Ideal when access to worksite is difficult:

The VSE 500 is most suitable for mixing and pumping materials to difficult to reach locations. Reduces workers load, and time needed for materials transportation. The VSE 500 can help to increase jobsite efficiency by more than 100%.
