

MM100 Spiral Mixer

MortarMaster MM100 Spiral Mixer

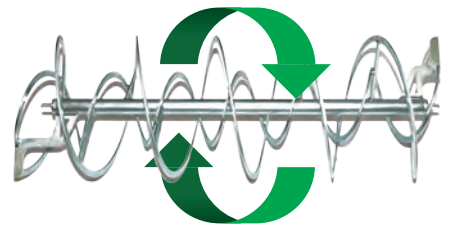

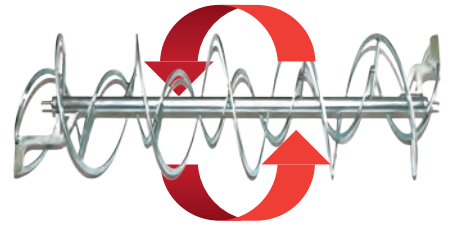

With its double helical paddle on horizontal arm and oscillating mixing direction¹, the MM100 Spiral Mixer ensures that the mixing result will be complete and homogeneous for all types of diverse product.

MM100 also includes a digital control panel² as standard, allowing adjustment of rotation speed, water dosage and displaying voltage.

Suitable for:

- All types of powder products
- All types of grout up to 10mm aggregates

① Oscillating Mixing Direction

② Digital Control Panel

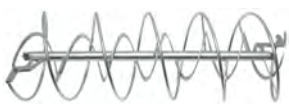

TECHNICAL SPECIFICATION

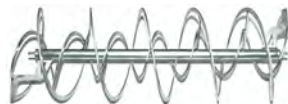

Motor	2.2 kW	Tank Capacity	100 L
Rotation Speed	36 - 84 rpm	Water Meter	Integrated
