# CG050M Manual Hand Grout Pump

## CG050M SPECIFICATIONS

<b>Pump Size</b>	050 (2" Piston)
<b>Flow Rate</b>	Up to 11 Litres/minute
<b>Pressure</b>	14 Bars (200 PSI)
<b>Power Options</b>	Hand Driven

The heavy-duty Model CG-050M is an easy to use, skid mounted hand pump designed for smaller jobs using high viscosity slurries and most pre-packaged grouts. Its rugged, lightweight aluminum construction offers mobility in areas where no air or electric power sources are available.

The 050M features a large 5-gallon holding hopper and durable 2" piston pump that produces discharge head exceeding 150 feet (ideal for vertical lifting). The manually powered, positive displacement piston pump disassembles in minutes without tools for simple cleaning and maintenance.
