

MortarMaster **Multi-Trowel**

MortarMaster Multi-Trowel

Multi-Trowel is a radius adjustable trowel that lets you adjust to any shape. Whether your plastering surface is curved or flat, the Multi-Trowel can be adjusted easily with its attached Allen Wrench and adjustment screw.

Suitable for domes, curved walls, columns, rounded ceiling, or any irregularly curved surfaces.

Built with stainless steel, aluminium alloy and glass reinforced plastic, the Multi-Trowel is built to last, easy to clean and maintain.

- **Lightweight and Easy to Control**
- **Quickly Adjust Radius with Allen Key**
- **Stainless Steel Blade**
