

Pre-cast Segment Mold for Tunneling Shield

- Tailor-designed for individual project
- Low-deformation design (Precision: $\pm 0.2\text{mm}$)
- Adjustable tolerance for precision control
- Spring-loaded mold cover for easy access
- Floating seals for leak-proof protection
- Vibrator system with easy access

Integrated Carousel System

- Streamlined casting to curing and delivery process
- Dedicated engineers crafting layout that aligns with factory's requirement
