

ChemGrout®

MADE IN USA

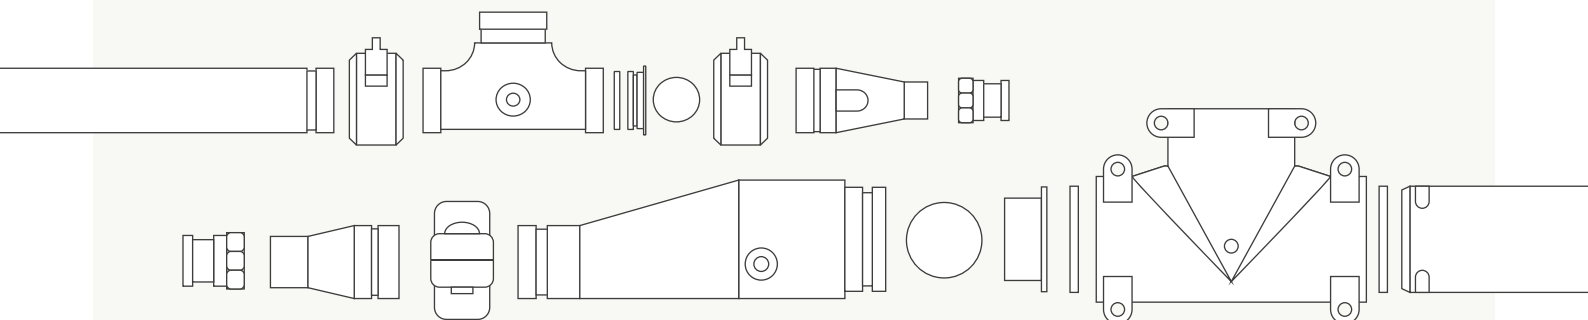

ChemGrout CG050 & CG030

Air-Driven Piston Grout Pump

Engineered for ease of use and convenience, the CG050 and CG030 are designed to maximize your work efficiency by streamlining every steps of your grouting project.

Both models features modular design, quick couplings or U-lock system, enabling fast disassembly for easy cleaning and maintenance. This user-focused design promotes regular care routines and helps extend their service life, keeping your project right on track.

CG050

Pump Configuration	2" Piston Pump
Outlet Size	1"
Air Compressor Req.	15 CFM
Max Output Rate	19 L/min
Max Pressure	16 bar
Hopper Size	19 L
Dimension	L 1118 mm
	W 280 mm
	H 788 mm
Weight	24 kg

Engineered to be portable and convenient, the CG050 is the ideal choice for small-scale grouting application. Its featherweight aluminium construction also allows it to be carried easily and fit into any space constraint site.

CG030

Pump Configuration	3" Piston Pump
Outlet Size	1.25"
Air Compressor Req.	100 CFM
Max Output Rate	60 L/min
Max Pressure	27 bar
Hopper Size	68 L
Dimension	L 1372 mm
	W 661 mm
	H 686 mm
Weight	150 kg

The CG030 is built for power and versatility, enabling a wider range of applications. From cement slurries to sanded mixes, its large 3" piston pump is very capable while still maintaining a relatively small footprint.

CG050 with Mixer Configuration (CG550P)
